MARCH

FEBRUARY RECAP

After almost an entire year of stay-at-home orders, cases are finally decreasing and restrictions are being lifted. Because Santa Clara County is moving into the red tier, PAUSD planned a hybrid learning format beginning March 9th, where students could choose to either attend zoom classes in their classroom or continue at home.

After this plan was introduced to students and parents, a fishbowl with Mr. Kline and Mr. Dharap was hosted to discuss reopening plans.

When course selections were first introduced to all students at Paly, ASB members hosted a course selection fair, where students who already took the class (or are currently taking the class) could offer more insights to others who may be considering the course.

Another major factor that distance learning neglects is the interaction between teachers and students. However, ASB also hosted a "Tea with Teachers" event where students got boba delivered to their house while talking to different teachers about different interesting topics.

Around Valentine's Day, ASB hosted Valentine's week, where valgrams were delivered to students' homes and the annual match-o-matics was held.

Club day 2 was also hosted, allowing students to learn all about the different clubs at Paly.

Lastly, seniors who are graduating also get a number of different fun activities such as float building, celebrations, and customized jerseys.

ASB CHECK-IN

REOPENING

- Freshmen Orientation
- March 9th is the planned date for reopening
- For logistics and/or questions, please reach out to teachers or ASB Officers for further information
